

World Sustainable Contracting Day 2023

WED
17
MAY

Middle East / APAC / NZ sessions: 8am-12:30pm Abu Dhabi/ 12-4:30pm Hong Kong / 3pm-7:30pm Sydney / 5pm-9:30pm Auckland
EMEA / Americas sessions: 3pm – 7:30pm London / 10am-2:30pm New York & Lima / 7-11:30am Los Angeles & Vancouver

Wednesday 17 May Middle East / APAC / NZ Time zones

	All times appear in Australian Eastern Standard Time (AEST) & British Standard Time (BST)
2:30-3pm AEST 5:30-6am BST	<p>Network & discover</p> <p>There has never been a greater time to build your global network and collaborate cross-boarders. Take the time to discover the virtual environment, the resources our partners have provided and make connections with global peers.</p>
3-3:15pm AEST 6 – 6:15am BST	<p>Welcome & opening remarks</p> <p>Sally Guyer, Global CEO, WorldCC Tim Cummins, President, WorldCC Nikki Mackay, Chief Development Officer, WorldCC Foundation</p>
3:15-3:45pm AEST 6:15-6:45am BST	<p>Keynote panel discussion: embracing a new definition of value and rising to the change management challenge</p> <p>WorldCC’s Academic Symposium on Sustainable Contracting concluded that the business world as we know it is not fit for purpose. What lies before us is a staggering change management challenge requiring us to fundamentally rethink our definition of value, breaking down traditional constructs of competition through radical collaboration. Contracts and those responsible for them will have a critical role to play. This cross-functional panel will bring together leaders from distinct industries to compare and contrast how they are rising to the challenge through technology, innovation and radical collaboration.</p> <p>Justine Rowe, Chief Sustainability Officer, Telstra Dharani Jeyaprakasam, Chief Transformation Officer - Procurement, IBM Chaired by: Sally Guyer, Global CEO, WorldCC</p>

3:50-4:15pm AEST	<p>Keynote fireside chat: the place where radical collaboration, responsible AI and those responsible for contracting meet</p> <p>Radical collaboration, or the deep and inclusive collaboration between diverse stakeholders to</p>

6:50-7:15am BST	<p>solve complex problems, has the potential to drive transformative change in the world. AI is evolving to enable more efficient and effective collaboration between stakeholders to achieve sustainability goals. In this fireside chat Judy Slatyer will talk about the fundamental shifts in behaviours and business relationships that we are beginning to see as generative AI penetrates every corner of our lives. What ethical considerations must be taken into account, what does it mean for businesses, stakeholders and those responsible for contracting? Judy Slatyer brings us with a wealth of experience in transforming business, people and mindsets as former CEO of Australian Red Cross, COO for WWF International, and CEO of Lonely Planet, as well as former Chief of Consumer Sales at Telstra Corporation. Judy's focus for this decade is to support Australia, Australians and Australian businesses to adapt to the future ahead, particularly given the impact of climate change and frontier technologies. If you are not already inspired to radical collaboration, you soon will be.</p> <p>Judy Slatyer, Sustainability, ESG, AI Thought Leader Chaired by: Sally Guyer, Global CEO, WorldCC</p>

	Case study Tackling Modern Slavery	Case study Sustainable Contracting Evolution	Case study Radical Inclusiveness
5:25-5:55pm AEST 8:25-8:55am BST	Education to impact: a year-by-year plan to tackle modern slavery risk in your supply chain A case study for what tackling modern slavery looks like for the average professional in the average company, and how to move from education to impact. The session takes a year-by-year approach over three years, and examines how to make a continual impact rather than trying to do it all overnight. Kim Randle , CEO, Founder, FairSupply	Case study: sustainable contracting for the marriage not for the break-up Matjale Matsaung , Head of Procurement & Contracting, GIZ South Africa, Lesotho & Eswatini	Developing and delivering a ESG strategy through radical inclusiveness In a world of increasing stakeholder activism across many different stakeholder groups, businesses need to deliver more than just profitability. To be a long term sustainable business with resilient returns, organisations need to deliver (often competing) outcomes for multiple different stakeholder groups. This session looks at how best to develop and deliver a sustainability strategy that can meet stakeholder expectations with integrity. Suzie Jakobovits , Strategy Deployment Manager, Corporate Strategy, Jemena

	Supply Chain Diversity	Blockchain Technology	Spotlight
6:10-6:40pm AEST 9:10-9:40am BST	<p>Case study: how to bring diversity to global supply chains</p> <p>Acknowledging that supply chain diversity brings competitive advantage, this session moves beyond the “why” to the “how.” It explores the mindset and policy changes needed at all levels, how to garner top-down support, what supply chain diversity looks like and how to get there, with corporate case studies.</p> <p>Speaker to be announced</p>	<p>How digital technologies are empowering businesses to eradicate modern slavery</p> <p>Digital technologies provide new ways for brands to gain visibility on their supply chain, identifying upstream supply chain partners, and the working conditions in their facilities. This session explores work done by Mekong Club and Diginex to increase the validity of self-assessment questionnaires and worker voice tools, by triangulating reports from different supply chain actors against each other. In doing so, the work demonstrates how simple online tools can be used to identify unfair working practices and combat slavery and child labour in supply chains.</p> <p>Matt Friedman, CEO, Mekong Club</p>	<p>Get prepared for ANZ Sustainability Reporting Requirements in 2023 and beyond</p>
